EDUCATION

Mahatma Jyotibha Phule Ruhelkhand (MJP) University

2020-2024

B.Tech(CSIT) -CGPA-8.0

Bareilly, INDIA

St. Atulanand Convent School

2019

Intermediate - Percentage - 74.02%

Varanasi, INDIA

COURSEWORK / SKILLS

- Data Structures & Algorithms
- Operating Systems
- Network Security
- Database Management System (DBMS)
- OOPS Concept
- Web Development

PROJECTS

Conquer | ReactJS

06 2022

- With the functionality to choose exercise categories and specific muscle groups, browse more than one thousand exercises with practical examples, pagination, exercise details, pull related videos from youtube, display similar exercises, and much more.
- Creating a Beautiful User Interface using the Material UI (version 5)
- Fetching data from unlimited sources using RapidAPI. Basically, this is the main component of this project, RapidAPI is contained so many useful free and paid API's.

Mine-Utube | ReactJS

01 2023

- This app is basically clone of the Youtube in ReactJs with Material Ui-5.
- Fetching data from unlimited sources using RapidAPI(Youtube V3).
- I used so far in our React JS series including Hooks, Props, States, Components, Array Map, etc. to make the website more easy to use.

Weather-app | ReactJS

05 2022

- In this App, to access the information of weather from OpenWeatherMap API in JavaScript that displays the current weather for any location.
- I used useEffect and useState important term in the reacts to create a responsive website.
- Fetching the data from OpenWeatherAPI by using fetch().
- Weather forecast is a big thing that enabled many of us to stay notified about the changes in climatic conditions beforehand.

Keeper-keeps | ReactJS

04 2022

- This app is used for tracking the list of tasks you need to complete or things that you want to do .
- I used so far in our React JS series including Hooks, Props, States, Components, Array Map, etc. to make the website more easy to use.
- For storing the data that is stored or saved in the task is slightly done by Local Storage (A very useful tool of React JS),
- With the help of this app, Tasks should be done quickly and in organise manner.

TECHNICAL SKILLS

Languages: Java, C, C++, JavaScript

Technologies/Frameworks: ReactJS, NodeJS, ExpressJS, MongoDB
